

## Welcome Hillsdale Families!

Like many other schools in the district, the Hillsdale PTO uses MySchoolAnywhere for our family directory and email distribution. Your directory profile is what enables you to receive our weekly PTO newsletter with important news, events, and volunteer opportunities. It also allows you to add your children to class lists and share contact information. Many families rely on the directory class lists for birthday party invitations, setting up play dates, etc. Even if you opt not to share contact information, we encourage you to set up a profile and add your children to their class list so that your children don't miss out on anything! It's secure, easy to use, and free to families.

If you are a new family (or previously opted out but now wish to register), please go to the website below, enter our school's code and follow the steps to register your family. You can specify what information you'd like to share in the directory - or choose not to appear at all.

*Returning Families* - If you're already registered, you should have received an email the first week of school asking you to update your profile for the new school year. If you did not receive an email, use the URL and invitation code below. **Unlike prior years, you will need to manually add your child to their teacher's class list. It is important for every family take action to keep our directory up-to-date!**

**Register at [join.myschoolanywhere.com](http://join.myschoolanywhere.com)**

**Invitation Code: HILLSDALE**

**Our directory will be going live in mid-September, so we ask that all new families register and all returning families update their information no later than Friday, 9/14.**

**Questions?** Contact Nancy Wood at [hillsdaledirectory@gmail.com](mailto:hillsdaledirectory@gmail.com)

---

**Install the Free app! After you get your login information,** download the app by searching for MySchoolAnywhere in the iTunes App Store or Google Play. The app allows you to access our directory and manage your family information all from your phone!
